SolidBoss Aperture Tires Perform And Endure

- ▶ Eliminate Downtime Due To Flats
- ▶ Get Longer Life From Your Tires
- ▶ Reduce Your Equipment Operating Costs
- ▶ Great Ride For Man And Machine
- ▶ Options For Improved Traction And Flotation

Fit your skid steer, loaders, telehandlers and backhoe machines with SolidBoss Aperture Tires and you'll avoid those costly and frustrating flats and downtime. You'll get more satisfying results, including a great ride for man and machine and reduced operating costs – due to longer tire life and no downtime and flat repair costs.

SolidBoss Aperture Tires come with several tread options to fit your jobs and preferences.

SolidBoss Expanded Wheel Solids A Solid Choice For Severe-Duty Applications

- ▶ No flats, no downtime
- ▶ Test-proven to be the low cost-per-hour-of-operation tire
- ▶ Solid performance for the harshest environments
- ▶ Durable for long wear
- ▶ High elastic natural rubber compound to reduce chunking

Our SolidBoss Expanded Wheel Solid Tires will become your best friend for trying harsh environments. SolidBoss Tires provide the best value for the harshest working environments you will encounter.

Our tires are manufactured with the highest quality natural rubber compounds that ensure durability and long wear cycles. Combined with the elimination of flat tire repairs and downtime, SolidBoss becomes an easy choice for your tough jobs.

Maximize Stability & Performance With SolidBoss Tires For Telehandlers & Skid Steers

SolidBoss offers telehandler tire options that will provide maximum traction and flotation. Whatever your telehandler application, SolidBoss has a solid aperture tire that will keep you and your telehandler on task.

- ✓ Stable performance in situations where pneumatics fail
- ✓ Tires last 4-8 times longer than foam-filled—made with highest quality rubber compounds
- ✓ Provide superior stability while load is in the air
- ✓ Maximum traction options available
- ✓ Superior ride for man and machine

Your skid steer equipment is constantly in motion—maneuvering quickly, powerfully and efficiently. Keep your skid steers moving by eliminating pneumatic tire failures and flats, and downtime, by switching to SolidBoss solid skid steer tires.

- ✓ Highest quality aperture hole tires
- ✓ Durable, reliable and long-wearing
- ✓ Reduce operational costs over the life of your tires
- ✓ Deep lug and great traction
- ✓ Superior ride for man and machine

Front Backhoe Tires

Stop repairing costly flats. Dig with confidence and put downtime due to pneumatic tire flats behind you with solid backhoe tires from SolidBoss.

- ✓ Provide stability, traction and cushion
- ✓ No more downtime due to flats
- ✓ Longer wearing. Longer tire life

Aerial Work Platform Tires

Our OEM-approved AWP solid tires provide stability when boom is extended and durability for longer life of tire compared to pneumatics.

- ✓ SolidBoss AWP tires offer increased stability over pneumatics
- ✓ Durability will result in 4-8 times of tire life compared to pneumatics
- ✓ Tires available in non-marking and black
